

RUSSIANS FEAR FOR LIFE OF THE CZAR

ALARMING RESULTS OF ILL- NESS OF THE EMPEROR.

Menace of Brain Fever and Fatal Issue May Be Near—Rumor Says It Results from Japanese Fanatic's Blow Censorship Is Rigidly Enforced Regarding This Matter.

Berlin, Nov. 26.—The following special dispatch from St. Petersburg has been received here:

"It is persistently rumored in St. Petersburg that the condition of Emperor Nicholas is critical. Well informed people here declare that the disease has made far greater progress than the czar's physicians have admitted. A fatal issue is now gravely feared."

Alarm at the Capital.

St. Petersburg, Nov. 26.—From three sources of information, directly connected with as many ministers of state, the St. Petersburg correspondent of the Associated Press today ascertained that the imperial officials are becoming extremely pessimistic regarding the condition of Emperor Nicholas, and assert that the Livadia bulletins conceal the gravity of his illness.

In spite of the notorious ease with which an alarming rumor can be circulated in the Russian capital, many good judges believe that the chances of the czar's recovery are diminishing.

New Brain Complication.

One report says that the emperor, in addition to typhoid fever with pectoral complications, has brain fever, the result of the blow he received from a fanatical policeman during his tour in Japan, and it is even asserted in some quarters that trepanning has become necessary.

Although the imperial ministers have assumed wider powers in administration since his majesty's illness began, the whole machinery of government is affected by his disability, and many departments are almost at a standstill. Russian laws and customs impose upon the czar an immense detail of work, particularly in the matter of signatures, for example numerous special pensions, the payment of which on each occasion requires the emperor's name.

London Reports Conflict.

London, Nov. 26.—While the latest bulletin regarding the czar's condition is much less favorable than its predecessors, there is nothing as yet to confirm alarming rumors. Queen Victoria daily receives a telegram from the czarina, and it is understood that no exceptional anxiety is as yet displayed.

According to the Moscow correspondent of the Daily Press, an examination of the water taken from the well used for drinking purposes at Livadia proved the presence of typhoid germs. An Odessa dispatch to the Daily News dated Thursday, says:

"Reports for the last two days indicate a serious decline in the strength of the czar."

Russian censorship prevents any leakage of news. It is understood that the czarina will remain at Livadia for her accouchement, and even under the best conditions it will be impossible to remove the czar before February.

Colored Student Wins an Orator.

Bloomington, Ind., Nov. 24.—Willis O. Tyler, colored, won the primary oratorical contest of Indiana University, and will represent the university in the state oratorical contest to be held at Indianapolis. His subject was "The Middle West." H. E. Hutton received second place, subject, "Frederick the Great and Modern Germany." Tyler is working his way through college, and is the second colored man who has represented the university in the state contest.

Kitchener to Be Lieutenant-General.

London, Nov. 26.—The cabinet has decided to recommend that Queen Victoria make Major-General Lord Kitchener a lieutenant general, so as to enable him to take over the supreme command in South Africa when Lord Roberts leaves the country. It is believed her majesty will have no hesitation in thus honoring the hero of Khartoum, even though a storm has been raised over his alleged brutal method of conducting the South Africa campaign.

Boxers Are Safe at Present.

Shanghai, Nov. 26.—It has been openly talked here that a force of 15,000 allies would proceed from Shanghai to Hankow soon on a punitive expedition. A foreign official of prominence denies, however, that such a move is intended. Reports from Peking say the punishing expeditions of the allies have been abandoned, at least for the present.

Lawson Defeats Johnny Nelson.

Los Angeles, Cal., Nov. 26.—In a fifteen-mile motor-paced race on the indoor bicycle track at the Velodrome today Gus Lawson defeated John Nelson, the middle-distance champion. Lawson won by a quarter of a mile, and incidentally lowered the world's record by thirty-seven seconds, his time being 25:12.

GAIN WEIGHT A POUND A DAY.

Kansan Says He Has Found in Alfalfa the Secret of Fat Making.

Wichita, Kan., Nov. 26.—J. W. Shults of Wichita has made an important discovery which he refuses to patent, saying that he discovered it by accident. Mr. Shults was a former state fish commissioner, and received from foreign countries many interesting reports on fish culture and kindred subjects. In one of them he read of a Turkish sultan of three centuries ago, who would admit no fair one into his harem unless she was of certain plumpness. In other words he declared that fatness should be the fashion. This set all of Turkey to fattening its daughters, for a fat pension went to the family of a girl in the sultan's harem.

The story was told of how a certain plant was discovered in Asia Minor, the seed of which had peculiar fattening powers. A flour was made of the seed and made into cakes for the harem candidates. When the sultan died his successor changed the fashion, and the diet from the Asiatic plant was discontinued.

Shults, who is something of a scientist, began an investigation upon the subject and finally discovered that the Asiatic plant referred to was nothing more than modern alfalfa grass. Taking alfalfa seed he made cakes of it and experimented upon several persons of the town. The cake being bitter and objectionable to the human taste, Dr. Shults made an extract from the alfalfa seed and finally made a fluid extract.

Eight weeks ago he began experimenting upon himself taking three tablespoonfuls of the extract every day. He offers to wager \$10 to \$100 that he can make any person gain one pound each day by taking his preparation. He will not sell the extract.

PEOPLE HAVE CAUSE FOR THANKSGIVING

Impressive Prosperity Lesson in the Country's Big Growth in Commerce and Trade.

Washington, Nov. 26.—If any people in the world have cause for thanks it is the people of the United States. The whole world is prosperous, but no other country is the recipient of so many blessings as ours. This is the lesson to be drawn from a report that has just been issued by the treasury bureau of statistics.

Our exports show an increase of \$166,331,178 in the ten months ending with October, 1900, as compared with the corresponding ten months of 1899, and the total for the ten months is practically double what it was in the corresponding months of 1894.

This of itself shows a remarkable activity in all lines of production, while the import as well as the export figures indicate that the activity in manufacturing lines, and consequently the increased earnings of the millions engaged in these industries, must be very great.

FAVORS NIC RAGUAN ROUTE.

Report Discourages Panama Scheme for Isthmian Ship Way.

Washington, Nov. 26.—In a few days President McKinley will have in his hands the preliminary report of the Isthmian canal commission. This report is in favor of a canal across Nicaragua as against all other routes. It favors the construction of a canal thirty feet deep and costing \$120,000,000. The report discourages a Panama canal, which route has been heretofore the only competitor of the Nicaragua water way. The matter of cost also is in favor of the Nicaragua route, as the Panama canal would cost \$150,000,000. The route favored by the commission follows closely that recommended by the Walker commission two years ago, the total distance from the Pacific to the Atlantic being 190 miles.

Amnesty Bill Passed.

Paris, Nov. 26.—The senate adopted the amnesty bill, which had already been adopted by the chamber of deputies. M. Gustave de Lamarzelle, senator for the department of Morbihan, asked whether the amnesty extended to the persons condemned by the senate sitting as the High court and to the Assumptionists.

M. Waldeck-Rousseau, the premier, answered: "It is impossible to grant amnesty to those who continue to menace the government, and, as for the assumptionists, their offense has not ceased."

Crocker Says He Needs Rest.

Queensdown, Nov. 26.—Richard Crocker looked somewhat indisposed when the Cunard line steamer Lucania arrived here today. He said that he was not in the best of health. He had done much work during the campaign and intended to rest in England and on the continent for six months. Mr. Crocker declined to comment on the charges made against American jockeys, nor would he refer to the Scotchman II's running at Doncaster until he knew the details. He eschewed politics wholly.

Mr. and Mrs. John McNaught are the guests of Mrs. McNaught's mother, Mrs. A. P. Prichard, for a few days.

FEAR TROUBLE WITH SULTAN OF TURKEY

RELATIONS WITH THE U.S. ARE BECOMING STRAINED.

He Refuses to Pay the \$100,000 Indemnity Now Due for Several Years, and Also the Refusal to Permit Our Consul at Harpoot to Assume His Duties.

Washington, Nov. 26.—Relations of the Turkish and United States governments are becoming strained as a result of Turkey's non-payment of that \$100,000 indemnity, now standing for several years, and Turkey's refusal to permit our appointed consul to Harpoot to assume his duties.

What steps the United States government will take as a result of Turkey's refusal to grant an exequatur to Dr. Thomas H. Horton, appointed as consul to Harpoot, cannot be determined until the state department has heard officially from Constantinople.

If the refusal does not concern the consul's personality and is obviously intended as an offense to the country that the consul represents, umbrage may be properly taken.

If Dr. Horton is not personally offensive to Turkey and the Porte's explanation of the sultan's refusal to grant Horton's exequatur indicates that the action is a gratuitous affront, retaliation will be made by giving the Turkish minister to Washington his passports.

Meanwhile the battleship Kentucky is nearing Smyrna, perhaps to impress the Sublime Porte with this government's determination to see that our treaty rights are observed and also to insist on the payment of the indemnity claim.

DARK PLOT TO KILL LAWYER.

Charleston, Ill., Man Receives Infernal Machine.

Charleston, Ill., Nov. 26.—T. N. Cofer, Jr., a prominent young attorney and Democratic politician, has just escaped destruction in what seems a miraculous manner. He gave out today the details of an attempt on his life by means of a "present" from some unknown person, a box containing dynamite. It came to his office by express, and he opened the package while the express messenger was still there.

He Pulled the String.

The label was typewritten, and read: "Sample puzzle box. Open, pull string with quick jerk, the result will be surprising."

Mr. Cofer gave the string which protruded from a hole a jerk, but it broke. The box was then pried open, disclosing three big sticks of dynamite wrapped in combustibles and holes bored in them with fuses attached. A hundred match heads, glued to a stick, were intended to ignite when the string should draw a piece of sandpaper across their heads. About half of them were ignited with the first pull of the string, but in some miraculous manner smothered and only a sulphur smell came out when the box was opened.

Would Have Wrecked the Block. There was enough dynamite in the package to wreck the whole side of the public square—in which Cofer's office is located.

The package came from Aurora, but the express agent there has no clue to the consigner. Cofer does not know of an enemy in all the world. Detectives have been set to work both by Mr. Cofer and the American Express Company, and every possible effort will be made to ferret out the would-be assassin.

The box was wrapped in a copy of the Des Moines (Iowa) State Register of November 13, 1900, and stamped with rubber stamp "Keats Co., St. Louis."

FRAUD AMONG JAPANESE.

Immigrants Accused of Swearing Falsely to Residence.

Vancouver, B. C., Nov. 26.—Two hundred and ninety Japanese immigrants secured passports this month to enter the United States from British Columbia. James Reed, acting United States immigration commissioner, declares he found on examining the papers that a great many of the Japanese had British naturalization papers in their possession, setting out that they had been in Canada four years, when their Japanese passports showed that they had left Japan but six months ago. The Japanese who held these fraudulent papers were fishermen who had taken a false oath of residence, unwittingly or by design, to secure the standing of British subjects, that they might fish in Canadian waters, as no aliens can secure a fishing license. Commissioner Reed has been instructed from Washington that he cannot prevent these Japanese from entering the United States if they are otherwise qualified.

Hoyt's Will Is Fined.

New York, Nov. 26.—Playwright Hoyt's will was filed in the surrogate's office today. It cuts off all relatives. The Lambs Club gets the homestead at Charleston and friends receive liberal bequests. There is likely to be a contest in the courts.

AGREE UPON THE TERMS OF TREATY

FOREIGN ENVOYS PERFECTED PLANS FOR SETTLEMENT.

Nothing Now Remains Except to Secure the Approval of the Various Governments to the Pact—Japan Holds the Key to the Situation in China.

Peking, Nov. 26.—The foreign diplomatic body held a final meeting this morning and agreed upon the terms of the preliminary treaty. Nothing now remains except to secure the approval of the respective governments before definite negotiations with the Chinese peace commissioners are begun. The precise terms of the settlement have not yet been made public, but it is believed the main points are in substantial agreement with those contained in the French note to the powers—namely, punishment for the guilty, indemnity to governments and individuals, retention of strong legation guards and the occupation of certain places between Peking and Taku.

Japan to Break the Deadlock.

Washington, D. C., Nov. 26.—Developments in the China situation to-day show that Japan's decision will determine whether the vengeance policy of Great Britain, Austria and Italy are united in support of the presentation to the Chinese commissioners of a demand for the imposition of unusually severe punishment upon the responsible authors of the Chinese outrages. The United States, Russia and France are opposed to demanding more than the Chinese government can reasonably accomplish.

Chinese Rioters Lose Their Heads.

Hongkong, Nov. 26.—The Chinese authorities in Kowloon have begun exercising their power again and two leaders of the recent anti-Christian riots have been beheaded in the presence of the French consul. The Chinese officials have been warned that they would be held responsible for future outbreaks.

Americans Capture a Village.

Peking, Nov. 26.—A party of American cavalry went to-day to disperse a band of bandits in a village sixteen miles from Peking. The village was found strongly fortified, but the Americans attacked and captured it, killing seven Chinese.

TWO ARE KILLED BY A LIVE WIRE

Akron, O., Nov. 26.—Frank Werner, a tinner, and Louis Rohrer, a gas fitter, picked up a live electric wire at Wooster avenue, this morning. Both stooped at the same moment to lift the wire which was blown down by the storm. Both died the same instant. Both had their fingers burned off.

PRESS AIDS KRUGER.

L'Intransigeant Urges Meeting of European Journalists.

Paris, Nov. 26.—The morning papers suggest various ways of assisting Mr. Kruger's cause. L'Intransigeant contemplates the formation of an international conference of journalists at some European capital with a view of discovering practical ways of helping the Boers. La Republique is persuaded that if European governments would remind Great Britain that she signed The Hague convention good would follow and that there would be no risk in taking such a step. On account of the boisterous crowds which lined the streets in the vicinity of the Hotel Scribe all day clamoring for President Kruger and cheering for the Boers the authorities found it necessary to maintain a cordon of police. They kept the multitude at a respectful distance from the hotel, but did not prevent peaceful demonstrations. Whenever anti-British cries were indulged in, however, the offenders were at once arrested. Mr. Kruger passed Sunday with his family at the Hotel Scribe, observing the Sabbath in accordance with the customs of his fatherland. His apartments were closed to visitors and he remained with them, indulging himself in perfect rest.

DR. W. H. C. ABELL IS DEAD.

Portage Pioneer Assisted in Building Erie Canal.

Portage, Wis., Nov. 26.—Dr. W. H. C. Abell, an old settler of this city, died last night aged 73 years. He was assistant engineer in the construction of the Erie canal in New York state, and was prominent in Masonic circles. The funeral will be held Tuesday afternoon.

Accidentally Shot Dead.

Beloit, Wis., Nov. 26.—Mr. Allison J. Stiles, son of the late Geo. A. Stiles, was accidentally shot yesterday afternoon by one of his companions. He went out hunting with several of his friends and in some way he was shot. The back of his head was entirely torn off.

SEEK TO RESCUE MILWAUKEE.

The Rev. Judson Tittsworth Says Citizens Should Take Action.

Milwaukee, Wis., Nov. 26.—The Rev. Judson Tittsworth, pastor of Plymouth church, one of the leading congregations of the city, delivered a sensational sermon, denouncing the use of money in politics and declared that he had reason to believe that the Clark case was to be repeated in Wisconsin. Rich men, he said, were getting everything with their money and getting it in an improper manner. Employers, he said, hired girls and then paid the girls wages so small that they could not live on them, leaving them to get their living in the best way that they could in some other way. His theme was "Wide-Open Town," as exemplified under the administration of Mayor Rose. The wide-open town he said was conducted for profit. It made money for some people and most of them in an illegitimate business.

In conclusion he declared that it was time that concerted action was taken by the citizens to rescue the city from the infamy into which it had fallen.

UNIVERSITY CLASSES GROW.

State School at Madison Has a Total Enrollment of 1,852.

Madison, Wis., Nov. 26.—The rapid growth of the University of Wisconsin is shown concretely by the classified statistics of the attendance as contained in the recently completed university directory. Without counting in the several hundred students who will be here on December 1 to attend the short courses offered in agriculture and dairying, there is a total enrollment of 1,852, which is a gain over last year of 140.

The most popular courses are shown to be those in engineering, law and commerce.

SLAIN WITH PENKNIFE.

Leonard Day, Milwaukee's Son, Killed in Midnight Brawl.

Minneapolis, Minn., Nov. 26.—Leonard Day, aged 23, son of the millionaire lumberman of that name who died several years ago, and a prominent man around town, was fatally stabbed in the billiard room of the West hotel at 1 o'clock this morning, dying in a few minutes. F. H. Hamilton, a reporter on the Minneapolis Times, who came to Minneapolis a few months ago from Colorado, is under arrest for the crime, and the coroner's jury, which sat today, brought in a verdict expressing its belief that the knife with which young Day was killed was in the hands of Hamilton. The trouble is believed to have started over a woman, or two women, as there are two stories about it. One is to the effect that the two men were attentive to a woman of questionable character living in Hennepin avenue and their jealousy caused the tragedy. The other is to the effect that a respectable girl, whose name has not been made public so far, is the cause of the fatal meeting.

THREE KILLED BY EXPLOSION.

Boiler of the Lighter Stewart Blows Up with Fatal Results.

Detour, Mich., Nov. 26.—While lightering the cargo of the stranded steamer Isaac Ellwood in Mud lake this morning, the forward boiler of the lighter Stewart blew up, killing three men and injuring several others. The dead are: Rankin Workman, Louis Carpenter of Sault Ste. Marie, William McKenzie of Detour. John Henderson, Sault Ste. Marie, had his skull fractured and cannot live through the night. Frank Milder of Sault Ste. Marie is missing and it is thought he was blown into the water and drowned. John Warner of Sault Ste. Marie is badly scalded, and his leg fractured. Thomas Melvine of Detour, and William McGregor, John Cairns, Captain Rawlings, all of Sault Ste. Marie, received serious injuries, but it is thought they will recover.

Farmer Is Hurt to \$80,000.

Binghamton, N. Y., Nov. 26.—Franklin B. Ainsworth, a poor farmer, has fallen heir to \$80,000 for saving a man's life twenty-five years ago. Ainsworth was driving along the road and seeing a man struggling in the water went to his rescue. The half-drowned individual asked his rescuer's name and remarked that Ainsworth would hear from him some time. Last week he received a letter from a lawyer in Philadelphia stating that a man had died in that city who had left his money to Ainsworth because he had once saved his life.

Lawyer-Editor Killed by Train.

Bloomington Ill., Nov. 24.—John C. Gordon of Normal, was killed by a passenger train, while walking on the Chicago and Alton track between this city and his home. His mutilated body was found upon a locomotive pilot in this city, and was not identified for several hours. Mr. Gordon was aged thirty-five years. He was a lawyer, but for some years had devoted his attention to politics and journalism. He was an able advocate of free silver in the campaign of 1896, and during the campaign just closed was on the stump for the Democratic party. Mr. Gordon edited the Courier, a Democratic paper published at Normal.

GALE IS RAGING ON GREAT LAKES

IS BLOWING SIXTY MILES AN HOUR ON LAKE ERIE.

Passenger Steamers Arriving at Cleveland Report a Terrific Experience Last Night—Schooner Sligo Is in Danger Near Port Huron—Three Killed in a Boiler Explosion.

Cleveland, Nov. 26.—A sixty mile an hour gale is raging here and eastward blowing down wires and making navigation perilous. The waves at Loraine have ruined a part of the government pier and the other docks. Passenger steamers arriving report a terrific experience last night.

Schooner Is in Danger.

Port Huron, Mich., Nov. 26.—The schooner Hattie Wells, while at the mercy of a big sea, flew signals of distress and the tug Proctor went out and brought her in. The crew is safe and the vessel appears to be all right. The schooner Sligo is lying at anchor two miles east of the lightship riding out the gale. She is in a dangerous position and the tugs are unable to pick her up. The gale continues today with unabated force.

Three Killed in an Explosion.

Detroit, Mich., Nov. 26.—While lightering the cargo of the stranded steamer Isaac Ellwood in Mud lake this morning the forward boiler of the lighter Stewart blew up, killing three men and injuring seven others. The dead are:

RANKIN, Workman.
LOUIS CARPENTER, Sault Ste. Marie.

WILLIAM MCKENZIE, Detour.

The cause of the explosion is unknown. The boiler was apparently working all right and blew up without warning.

About two hundred tons of ore had been lightered from the Ellwood, but she is still fast on the bottom and the tugs cannot move her.

U. S. CONTROLS MARKET.

Verdict of Man Who Inspected European Steel Shops.

Chicago, Nov. 26.—After nearly a month spent in examining the steel shops of France, England and Germany, W. J. Chalmers, of Fraser & Chalmers, Chicago, has just returned, is convinced that the United States is in a position to control the foreign markets for iron and steel and their products. Germany, Mr. Chalmers thinks, is the only country which can vie with the United States in the manufacture of steel. That country is awakening to the fact that Europe is in the manufacture of steel and iron is years behind. Speaking with regard to conditions here and in Europe relative to the iron and steel trade Mr. Chalmers said: "There is no longer any doubt that the United States is now getting the bulk of the iron and steel trade, and I am convinced that this will be the case for many years to come. There is no country today which can successfully compete with us in this line, and the conditions in Europe are not such as seriously to menace our supremacy. In Germany there are many shops being built, and they are being splendidly equipped. Nine-tenths of the tools, however, which are being used in the shops in that country are of American manufacture. Germany is rapidly preparing to become a dangerous bidder for the trade. But we are competing successfully in all the markets of the world. The reason for this is to be found in better equipment, and that in times of depression the iron men have built and planned for the harvest of the future."

WISCONSIN PLURALITY IS 106,002.

McKinley's Lead the Greatest the State Ever Gave a Candidate.

Milwaukee, Nov. 26.—The work of canvassing the votes in the several counties of the state has been completed. From these it is shown that President McKinley received a plurality of 106,002 and La Follette for governor a plurality of 103,746.

McKinley's plurality in 1896 was 102,612. His plurality this year is therefore 3,390 more than four years ago and tops the record for the pluralities in this state. This, too, in the face of a lighter vote than was cast four years ago.

In 1896 the votes cast were 447,409 while in 1900 the votes cast were 442,283, or 5,126 less than in 1896.

Pulse a Little Weaker.

St. Paul, Minn., Nov. 26.—Senator Davis' condition is unchanged this morning with the exception that his pulse is a little weaker.

Joe Mulhatten in an Asylum.

Phoenix, Ariz., Nov. 26.—Joe Mulhatten, known as "King of liars" among traveling salesmen, was sent to the insane asylum here. His trouble is attributed to over-indulgence in alcoholic stimulants. He has been operating a mine near Florence.

RALPH JACKMAN WILL BE MARRIED

ENGAGEMENT TO MISS ETHEL
HOUSER ANNOUNCED.

Well Known Janesville Young Man
Finds His Bride in the State Uni-
versity, Madison—Saturday's Foot-
ball Game—No Iowa Game—May
Play Brown University Dec. 8.

Madison, Wis., Nov. 26.—Friday evening at the charity ball the engagement of Ralph Jackman to Miss Ethel Houser was announced by the interested parties. The announcement was the occasion for congratulations by the numerous friends of the popular young couple and formed a pleasant feature of the evening's enjoyment. Mr. Jackman is a Janesville boy, a graduate of the University of Wisconsin, class of '97, and a graduate of the Harvard Law School, class of 1900. Since completing his education he has located in Madison for the practice of law. Mr. Jackman is a member of the Delta Upsilon fraternity.

The bride-to-be is the daughter of Walter L. Houser of Mondovi, Wis. She is a senior in the University and a member of the Gamma Phi Beta sorority. The young couple have a host of friends in the university who will wish them abundant success and happiness.

Saturday's Football Game.
The Wisconsin-Illinois football game on Saturday afternoon was a much closer contest than the final score of 27 to 0 would indicate. The team from the Illinois university put up a desperate defense against the heavy Badger's eleven and showed the best ground gaining ability of any team that has met the 'varsity this year, not excepting Minnesota. Illinois succeeded in pushing the ball straight down the field and earning a touchdown which did not count, however, because of a fumble by the Illinois half-back. One of Wisconsin's five touchdowns was the result of a fumble. The condition of the field was wretched because of the heavy snowfall of the morning and fumbling was very frequent.

No Iowa Game.
The athletic council of the Iowa State University met Saturday afternoon to consider Wisconsin's challenge for a meeting on the gridiron. By a unanimous vote the challenge was not accepted. Iowa had little to gain by such a game, and in the event of defeat, which was very probable, would lose a great deal.

It is stated here on good authority that the great desire on the part of Wisconsin to secure a post-season game arises from purely financial considerations. The gate receipts this year have been very light compared with what they were a year ago, when under John Fisher's able management, when a profit of \$6,000 was turned over into the treasury at the end of the season. The exact state of the association's finances it is impossible to determine, but it is said that a big game in Chicago or Milwaukee would help out very materially.

May Play Brown.
Graduate Manager King and Athletic Superintendent Schlichter are negotiating with the football authorities of Brown university of Providence, R. I., for a game to be played December 8, at Chicago or Milwaukee. If played at Milwaukee the game will take place at the Coliseum where any snow could not reach the field so hard as to be dangerous to the players. At present the management seem to be quite confident of concluding the arrangements for the game.

Williams on Freshman Crew.
Frank Williams, who entered the university this fall from Janesville has been training with the freshman crew squad. Williams is especially well built for an oarsman, being large, of long reach in arms and thighs, admitting of the great physical development necessary for a crew man. He is looked upon as being very promising candidate for the next season's honors in freshman aquatics.

Y. M. C. A. Men Return.
Most of the university delegation to the Y. M. C. A. convention in Janesville have returned. The men are enthusiastic in their praise of the Janesville people who gave them a cordial welcome and entertained

them so generously during the progress of the convention. The delegation was greatly surprised at the grand building with its completeness of equipment possessed by the Janesville association.

The organization here is making every effort to secure funds for a beautiful new building for which plans have already been agreed upon. The Janesville meeting has given our boys an inspiration for this new work which is sure to produce good results in the near future.

How to Please Women.
Most women are pleased to receive special attentions from their men friends in the presence of other women. Good taste and judgment must help a man to decide how far such attentions may go without rendering their object unpleasantly conspicuous.

AN IMPORTANT CHANGE.
A Large Company's Branch in Janesville.

N. B. Robinson & Co. having decided to go out of the wholesale beer business, the Blatz Brewing Co. of Milwaukee, has established a Janesville branch with offices at No. 16 East Milwaukee street, room 12, and will hereafter represent its own interests in this city. Messrs. E. Boots and Henry Casey, gentlemen who are well and favorably known about the city, have been retained by the Blatz Company, and it will be their aim to promptly fill all orders sent to the above address, or telephoned to "675 Rock Co." or "447 Wisconsin Co."

Comment regarding this company's products seems unnecessary at this time, as the Blatz brews are held in highest regard by beer drinkers everywhere.

Evening Drafting Class.
The Gazette will receive names of persons wishing to take up the study of Mechanical Drawing evenings, under the personal supervision of a competent instructor. The charges will be moderate, and will decrease as the number of applicants increase. This opportunity will be for one week from date.

LITTLE MOVEMENT IN THE NEW CROP

Very Few Tobacco Buyers Are Riding
in This Section—Higher Fig-
ures Are Demanded.

The movement in the new crop is practically suspended in most of the growing sections and very few buyers are doing any riding. An impression prevails that the balance of the crop is held at higher figures than dealers are warranted in paying for the quality of goods remaining, and it seems quite probable that the farmers will be given an opportunity to think over the situation before the movement is resumed.

Several days of casing weather have occurred during the past week and the tobacco growers have been given abundant opportunity to remove the crop from the curing sheds. If the farmer used discretion and was careful in his work his tobacco could have been lowered from the poles in prime condition. The moist weather continued so long and the leaf came gradually into case and need only to be caught at the proper stage, when it could be removed at desired condition.

Only those who are careless in their methods need have their tobacco in the high case and these have themselves only to blame. Having an opportunity to remove the tobacco early from the sheds, stripping will now go forward with all dispatch. In a few days now deliveries can be made at the warehouses, many of which will be able to start up their sorting rooms by the first of the coming month.

It is rare that much warehouse handling is done in this state before the holidays, but this season a good month's work can be done before that date. A number of firms who bought largely of the present crop are anxious to open the warehouses at the earliest possible moment, and this will insure a long season of tobacco work at the packing centers.

The shipments out of storage reach seventeen carloads, 800cs, from this station to all points for the week. Since last report 800cs of cigar leaf were exported from New York.—Edgerton Reporter.

FOR HIGH SCHOOL DIPLOMAS

Plan to Regulate Diplomas for Admission to High School.

A plan has been adopted by a committee composed of Superintendents of Schools Wm. M. Ross and David Throne, and Miss Lucy Whitmore, Miss Inez Arnold, J. E. Howarth and R. E. Loveland, which will put a stop to the abuses of the present methods of granting diplomas to graduates of country schools for admission into the High school. The plan adopted will be presented to the Rock County Teachers' convention which convenes at Beloit next month.

The plan is something like this: The questions will be put in sealed envelopes and issued by the two superintendents simultaneously, to be opened only on a certain day. No teacher is allowed to examine her own pupils, each teacher examining the pupils of some other school. The papers have no name attached, but a number and a corresponding number and the name of the pupil is kept by the teacher making the examination.

The superintendents of the High schools of the county have agreed to examine the papers. One will mark one study and one another. There can be no partiality.

PROCTOR BUILDS LARGE BARN

Well Known Town of La Prairie Farmer Has Model Stable.

H. C. Proctor, residing in the town of La Prairie, four miles from Janesville on the Emerald Grove road, has recently completed one of the most model barns in the county. The structure is 46x30 feet, and is two stories high. The upper floor will hold thirty-six tons of hay. The lower floor is arranged so that the cattle and horses are each in their respective quarters, many feet apart. The stable is painted red, with white trimmings, and is a credit to its owner.

Supply of Clams Diminished.

Over the greater part of the New England coast the supply of clams has suddenly diminished to an extent which has become alarming. Extensive areas which four or five years ago produced great numbers of clams are now practically barren. The explanation is simply that the demand has increased at such a rate that too large a number of the natural "seed" clams have been removed and extinction suddenly follows.

THEFTS NET \$1,000,000.

Henry Seelig, Fugitive from Justice, Is Caught.

HE SWINDLED HUNDREDS.

"Broker" Who Was Hunted to Answer Charges of Obtaining Goods by Fraud Is in a Cell After a Four-Year Hunt.

New York, Nov. 26.—Henry Seelig, a swindler whose stealings may aggregate \$1,000,000, and who has been a fugitive from justice for four years, was arrested in this city last night. He is held at police headquarters. He is said by the police to have been swindling Chicago merchants. He will be arraigned in the court of general sessions and will be compelled to answer complaints made by his victims, who number hundreds and who are scattered all over the country. In the past Seelig has succeeded in being admitted to bail whenever arrested, and he has never failed to forfeit his bond. This time he will have no opportunity to escape by this method. Operating under a name similar to that of some firm with high commercial rating, Seelig has swindled the shrewdest business men of America. Some of them have again and again fallen his victims, their repeated mistakes being the result of his rapidity of movements and the easy manner in which he changed names. Four years ago as "B. Blank" Seelig did business in this city, obtaining goods and disposing of them for what he could get. He is said to have made a profit of \$300,000. The first day the police took charge of his office that year, letters came from 772 business firms calling for settlement of overdue claims. Later Seelig operated successfully in Brooklyn, and still later in several of the larger cities of the west. Capt. McClusky believes that he or his confederates are even now running a swindle with headquarters in Chicago. When arrested Seelig was well dressed, and had in his possession a considerable sum of money. In other ways he gave evidence that his prosperity has continued since he was last seen in New York. Henry Seelig and his brother, Frank, under the name of "B. Blank," opened an office at 29 Murray street, this city, as commission brokers. It was Seelig's plan to profit by the reputation of B. Blank, a well-known firm. This made it easy for him to blind his victims. Seelig sent letters broadcast over the country asking for prices, samples and discounts. He was not in the least particular as to the kind of goods he dealt in—wines, liquors, cigars, canned goods, clothes, machinery were all one to him. As soon as the shipment reached the city it was disposed of. Sometimes the goods were sold at auction and at other times they went to wholesalers or retailers who were satisfied not to ask questions so long as they drove a prosperous bargain. "B. Blank" received goods worth more than \$500,000, and these were sold for probably \$300,000 or more. Then came the crash. Inspector Adam A. Cross, then a captain of police, arrested Frank Seelig, and then, by watching the home of William Matzner, who lived in fine style far uptown, he succeeded in capturing both of the other swindlers. They were all three arraigned before Justice Fitzgerald, who accepted bonds for each in the sum of \$5,000. Thereafter until to-night the New York authorities have looked in vain for the members of the Seelig combination.

Porto Ricans Raising Fruit.
Professor Jacob H. Hollander of Johns Hopkins University, the treasurer of Porto Rico, has just returned to Baltimore on a short visit. "The people as a rule," he says, "are paying little attention to the future that the political situation in this country has raised, and seem perfectly contented. The raising of fruit in the island, which heretofore has not been practiced so extensively, has become quite an industry, and with encouragement and a little time should do well there."

How Amber Was Deposited.
Just as turpentine is produced from certain pine and fir trees, amber was generated from them in past ages. As it is a fossil—is found in the ground—it is called a mineral. Oozing out of the trees, amber flowed to the roots and lay there in large deposits. It is found in large quantities on the shores of the Black sea. Smokers like pipe mouthpieces made of it and the Chinese use much of it for making idols.

St. Vitus Dance.

Whatever disturbs, weakens or debilitates the nerve-centers or lowers the vitality of the system may bring about this terrible disease, which is purely a nervous disorder. But, though there may be many causes, there can be but one cure, and that consists in building up and strengthening the nerves. To do that successfully use Dr. MILES' NERVINE. It is the best.

"I had St. Vitus dance so bad that I could not speak a word and had to be watched night and day to keep from jerking myself out of bed. Every effort to find some relief proved unavailing until they began giving me Dr. Miles' Nervine and that remedy cured me completely."

THE IMPRACTICAL.

This world is said to be a cold, practical world, governed, so far as nature is concerned, by laws that are inflexible, and so far as business is concerned by laws of much the same character.

The farmer cultivates the soil, believing in a seed time and a harvest, because the laws of nature never speculate or theorize.

The man in business invests his money, and follows the well regulated channels of trade, keeping pace with the times, and leaves the field of speculation and theory to his more venturesome neighbor.

If he is the manager of a corporation where other people's money is invested in stocks, as silent partners, and has any regard for his reputation, and the success of the enterprise, he is very slow to adopt new theories, and strike out on new and untried ventures.

There comes along a wave of unusual prosperity, when dividends are promptly paid, and a liberal amount is added to the sinking fund, from the surplus, and he is besieged by the labor agitator or the theoretical employer, to adopt new methods and branch out into the field of co-operative labor, with glowing visions of the benefits of the profit-sharing plan, some features of which were discussed at the Twilight Club the other night. He listens to the arguments and admits that the scheme shows up well on paper, but he is a veteran in the ranks, and decides very wisely, that while a business protected by patents and monopoly may accumulate a large and ever increasing surplus these lines of business are the exception, and not the rule, and therefore unsafe as a governor of methods.

His line of business does not belong to the protected class. He is in the open market with sharp competition, and plenty of money and brains to take advantage of any weakness that he may exhibit.

He looks back through ten years of experience, and discovers that he has not only passed a dividend now and then, but that occasionally he has been obliged to call on his directors for personal endorsements representing in value many times the amount of their investment. He also notes that in all these years of varied experience no pay day was ever passed, and that his employees have taken no chances.

Again he decides very wisely not to experiment with the profit-sharing scheme that seems so plausible, yet is so poorly adapted to the ordinary business.

There are some arguments used in favor of co-operative labor that are very fascinating. It is claimed for instance that the man at the bench or forge will have a more lively interest in his work if he is a partner in the business, knowing that he has nothing to lose in any event, and everything to gain if the business makes money. That is a queer kind of a partnership, and yet that is what profit-sharing means deprived of all the frills and theories.

Another argument is that it dignifies labor, by giving to it a sense of proprietorship. This might be if labor had anything invested, or proposed to invest anything. When the business man makes a thousand dollars he leaves it in his business as an investment. Profit sharing contemplates nothing of this kind. It means simply a cash dividend to labor at the end of a prosperous year. The capital to continue the business is furnished by the firm or corporation who takes all the chances of loss or depreciation.

Various schemes have been tried to bring labor up to a higher plane. Model towns, with public library, amusement hall, comfortable dwellings with modern improvements and moderate rents, yet so far as this country is concerned they have usually failed.

Mr. Pullman experimented extensively along these lines, and died prematurely, one of the most cleverly hated philanthropists of his generation.

Just now the Roycrofters shops are attracting attention, because an enterprising Yankee has discovered that antiquity is in demand under the right conditions, and that ingenuity deftly applied will convert two dollars' worth of lumber into a \$100 table, and a few pounds of paper into a five dollar book. Of course labor should share in that kind of profits, because labor is about the only thing invested, except Mr. Hubbard's brain and pen, both remarkably brilliant, and yet the philanthropist has his reward at any where from \$200 to \$500 per night. There is room in this country for one Hubbard and one Phillistine magazine, but the man who attempts to follow him will be hopelessly left.

The trouble with a promiscuous partnership is that it is impractical and unnatural. The scheme has been tested in Utah, but it has never spread beyond that territory, because men have discovered that one man and woman constitute a firm, and a third partner on either side causes trouble. The compact that unites man and wife is sacred. So is a compact that forms a partnership between two men in business.

You may know a man ever so well, and be on the most friendly terms with him, but both men discover after being associated in close business relations for a month, that their acquaintance before was of the most casual kind.

An old business partnership that extends through a long series of years without friction is always an interesting study. The ties that bind it are usually closer than the ties of blood.

This fact is generally recognized, and because of it, all corporate business, however large, is placed in the hands of a few men, and its final responsibility in the hands of one man. You can no more share business responsibility with fifty or 500 men than you could share the home responsibility with the same number of women. The theory may be all right, but it never has worked, and never will.

There is in this country a class of intelligent and contented labor that is growing in volume every year. It is represented by the man who forgets that there is a whistle on the factory, or a dinner bell in the shop, the man who works not simply for his wage, but for the interest of his employer as well. Such men come to the front in every calling, and you can't stop them. They elevate themselves, through that rarest of all business graces, good common sense.

The world is intensely practical, and becoming more so every day. The man who keeps pace with the procession, will adopt and maintain practical methods. Theories are a pleasant fair weather pastime, but they don't "wash in a cloudy day."

The weather bureau has adopted and is now constructing a new code of coast signals that will cover 2,500 miles of territory on the Atlantic and Great Lakes. The system includes 108 steel towers mounted with search lights that can be readily seen twelve miles from shore. The loss of so many vessels on dangerous reefs during the past two or three years, has made it necessary to establish a more efficient service.

In the large cigar factories at Tampa, Florida, a reader is employed and the workers are entertained with a story while they work. One of the large New York factories has recently employed a pianist, and the girls are said to work in double quick time to the inspiration of lively music. What effect would music have on a city street force?

Secretary Root, now in Cuba, says that the island is the prettiest place he has ever seen. A new railroad employing 2,000 men is being built without a charter, as the Cuban government is not yet fully organized. The future of the island is very promising. The United States will watch its development with friendly interest.

Mr. Kruger is an old man with a strong personality, and a record of loyalty that commends him to the masses, but his threat that his people will continue to fight against the impossible, while there is a man or woman left, is an idle threat, that savors of mental decay and weakness.

The war tax will be reduced very soon after congress convenes. Many stamp duties will be removed among them the express and telegraph, which the people have been obliged to pay, because the law was so loosely drawn, that the corporations escaped on a legal technicality.

It is rumored that Mr. Bryan may not be a candidate in 1904. Democracy will breathe freer when the rumor is confirmed.

London capital is investing freely in American stocks. The election established confidence throughout the world in American securities.

The church people of Boston have recently discovered that a number of churches in that city are paying salaries to their Sunday school superintendents and teachers. The vineyard seems to be short of willing workers in the vicinity of the "Hub."

The south has no great love for Mr. Bryan; they voted for him because he was labeled democracy, and not because they endorsed his policy.

**NATHAN O. PATCHEN,
MARTHA A. HAYFORD**

Nathan A. Patchen of Albany, Green Co., Wis., and Martha A. Hayford of this city will be married at 8 p. m., Thursday, Nov. 29, at the home of the bride near the cemetery. Rev. W. A. Hall of the Court Street M. E. church will officiate. The lady is well-known and is an active worker in the local W. R. C. Mr. Patchen owns a farm near Albany where he will take his bride.

TWO ARE ARRESTED
AT HUDSON, WIS.

On October 6th Marshal Cal. Broughton of Evansville arrested three men on the charge of robbing a man on a freight train and throwing him from the moving train. The men were locked up in the Evansville lock-up and shortly after succeeded in making their escape. A hunt for the missing prisoners was at once instituted and two of the men were recaptured, one of the worst of the bunch getting away. The remaining two, were brought to this city and turned over to Under Sheriff Joseph Hearst of Columbia county who had a warrant for their arrest.

Hearst started with his prisoners for Portage and had to stop in Madison for about an hour. He took the men to Burke's hotel for dinner and at their request took the handcuffs off their hands in order that they might eat in comfort. One of the two, Paige by name, waited until he had a good chance and jumped up from the table, catching hold of a dining room girl he used her as a shield from the officer's revolver, backed out of the room and escaped. Search was made for him but he was not captured.

Word has just been received by the Evansville authorities from the sheriff at Hudson, Wis., stating that he has arrested two men for burglary that answer exactly to the description of the two men who were arrested at Evansville and escaped. Paige is an old offender and a desperate character. Steps will be taken by the Evansville authorities to identify the men now in custody at Hudson.

Low Rates to the South.
Excursion tickets at reduced rates are now being sold by the Chicago Milwaukee & St. Paul R. R. to the prominent resorts in the South, including Jacksonville, Fla., Mobile, Ala., New Orleans, La., Savannah, Ga., El Paso, Tex., which are good for return passage at any time prior to June 1, 1901. Information regarding rates, routes, etc., can be obtained upon application to any coupon agent of the Chicago, Milwaukee & St. Paul Railway. The remaining two were brought.

The death of George L. Carrington will be mourned by many Jamesville people. He was a large-hearted man, of kindly impulses, always ready to lend a helping hand. He was also an enthusiastic lover of the Bower City constantly planning and working for its advancement. He was the means of putting many people in the way of a home for themselves, and the city has many monuments to his memory that will live for generations. He had some enemies. Who has not? A man without them lacks personality and strength of character, and these graces Mr. Carrington possessed in a large degree. He made some mistakes; most people do; but his errors were of the head, and not the heart. He possessed unbounded hope and energy; and under favorable conditions would have worked out for himself and the city a destiny.

CONVENTION MADE CREDITABLE RECORD

FIDELITY WITH WHICH PROGRAM WAS ADHERED TO.

Closing Services of the Y. M. C. A. State Meeting—Resolutions of Thanks—The Next Convention—Great Union Meeting Held at the Congregational Church Last Night

A remarkable feature of the Y. M. C. A. convention which has just closed was the fidelity with which the program was adhered to. The chairman lost no time in speculating whether or not A., B. and C. would materialize at the proper moment. Were it a report, an address or a song Messrs. A., B. and C. were in their places when their turn was called, and whether the service was important or insignificant each did his part with as much earnestness and devotion as though the success of the whole convention hinged on his individual efforts. If the Y. M. C. A. had done nothing else than teach its members the decency and dignity of punctual devotion to duty, alike in small things and great, it would have laid the word under heavy tribute. In this respect the convention has made a creditable record.

Resolutions of Thanks.
The committee on resolutions held the first place on the program on Saturday evening after the opening exercises. In its report thanks were returned for kindnesses received to the people of Janesville, pastors of the different churches, the local press, J. C. Kline and the committee of arrangements, the railroads and specifically to the Y. M. C. A. orchestra and the Bower City quartet, to Drs. Gregg and Eaton and Messrs. Frank Smith and W. H. Ober. The report was adopted.

After a song by the male quartet the committee on recommendations reported twelve, the most important of which are as follows: The raising of \$4,000 for this year's budget; special county work; establishment of volunteer leagues in each association; to push the railroad work; to appoint as members of the state board, Messrs. Willis, Whitehead, Hamilton and Moehlenpach, and to continue F. E. Anderson as state secretary. The report was adopted.

The Next Convention.
Invitations were received from Oshkosh, Ashland and Racine for holding next year's convention. The decision will be left to the state board. Short talks on association work in colleges were made by Messrs. Hook, Phelps and Arminian. Dr. E. D. Eaton was then introduced to address the convention—New Men for the New Century.

As he came forward a bunch of Beloit boys on the right suddenly burst forth in the college yell, which so startled the timid people as to make them speculate on a possible uprising of the Boxers. Dr. Eaton took it calmly, however, and thanked the boys for their home-like greeting.

The gentleman is a polished and agreeable speaker with a very dignified stage presence. His theme opened up endless possible visits along several of which he looked with progressive yet conservative eye. He took issue with Cardinal Gibbon that the outlook for humanity is hopeless; owing to the universal spirit of greed. He regarded pessimism as folly and agnosticism as weakness. To be strong enough to accomplish anything what one needs is the solid foundation of conviction and hope.

His words were suggestive rather than dogmatic and as applied the body of intelligent young men before him would be like good seed dropped into fertile soil.

Union Meeting Last Night.
The attendance upon the different meetings throughout the city yesterday was large and at the union meeting at the Congregational church last evening standing room was at a premium. Music was furnished by the congregation, the Bower City quartet and the Milwaukee Glee club.

The report of the committee on credentials showed that twenty-seven associations were represented at the convention with an attendance of 245; including speakers, delegates, and members of the international committee, making the third largest state convention in the history of the association.

C. B. Willis, who presided, announced a debt on last year's account amounting to about \$500 and proceeded to lift it. Subscription slips distributed around among the audience brought in \$400, and the remaining \$100 was well broken into by the basket collection, so that the state committee is practically square with the world.

Address on Soul Winning.
The address on "Soul Winning" by Fred B. Smith was not a pleasant homily by a pleasant old lady as the title might imply, but a very manly argument for saving young men from evil. Mr. Smith is clearly an adherent of the Church Militant, ready to go forth armed for warfare, like the Crusaders of old.

He laid great emphasis on individual work, as the unit is the basis of all computation in the world of spiritual thought and action as in mathematics.

He covered the ground fully, briefly, and left on the minds of his hearers the conviction that if they were to win a reward they would not float away to the "Elysian Fields" on

flowery beds of ease. The farewell words were as usual and the curtain dropped on the Twenty-sixth annual convention of the Young Men's Christian Association of Wisconsin.

BORT, BAILEY & CO. ROBBED AT BELOIT

Burglars Enter the Store and Carry Away About Fifteen Hundred Dollars' Worth of Goods.

The large dry goods store of Bort, Bailey & Co. of Beloit was entered by thieves some time Saturday night and between one thousand and fifteen hundred dollars worth of silks and gloves were taken. The thieves entered the store from a hall which adjoins the store. They were evidently experts at the business as they took only the best silks and gloves. A large quantity of silk was carried from the lower floor to the carpet room above where the wrappers were stripped off and what they wanted selected. The station agent at the C. & N. W. station said that two men and a woman were at the station for the early train Sunday morning and bought tickets for Chicago. They had two large telescope grips and an ordinary grip which seemed very heavy. Undoubtedly they were the ones that went through the store.

HORSE MIXED UP IN A PILE OF TIES

A telephone message called Chief Hogan to the railroad track on the Beloit division south of Gold street about eleven o'clock last night. Chief Hogan found a horse hitched to a light road wagon mixed up with a pile of ties along the right of way.

The horse was down and unable to rise. After a good deal of hard work the Chief succeeded in getting the ties away from the horse and getting him onto his feet. Gus Benke, the man who was driving the outfit could not explain how he came to be there. He had started for his home in the town of Rock and had crossed the tracks on Gold street near the round house.

After crossing the main tracks he had lost his way and had driven down the Beloit track. He had not gone very far when he drove into the pile of ties and the horse became entangled in them and fell down. Some one discovered him and sent word to Chief Hogan, who released him from his trouble and set him on the right road for home.

When Chief Hogan found them they were where a passing train would have smashed the entire outfit. Benke did not seem to be intoxicated and could not explain how he came to be where he was found.

MRS. WM. B. BAINES INJURED.

Serious Accident to an Aged Lady on Saturday Evening.

Mrs. Wm. B. Baines, met with a serious accident Saturday evening between five and six o'clock and in consequence will be laid up for some time. Mrs. Baines, who is seventy-seven years of age, went out on the porch to empty a plate. Her foot slipped and she fell to the porch and could not rise. She was carried into the house and Dr. E. F. Woods called. He found that the hip was fractured about an inch above the socket. Mrs. Baines was in first-rate health and her many friends hope for her speedy recovery. She is the mother of Mrs. Wm. Bladon and Ex-Mayor F. S. Baines.

The Vankirk Reception.

The reception given by Mrs. W. T. Vankirk and Mrs. W. C. Vankirk at the home of Mrs. W. T. Vankirk, 3 Milton avenue, Saturday night, was a success in spite of the bad weather. One hundred ladies availed themselves of the opportunity offered them of enjoying the hospitality of the hostesses.

The parlors were profusely decorated with chrysanthemums and presented a handsome appearance. The evening was spent in playing six-hand euchre and other games. The prizes consisting of two pieces of cut glass were won by Miss Minnie Bennett and Mrs. J. F. Pember. The ladies present spent a very pleasant evening.

HE HAS RETURNED WITH THE CORPSES

Trip Frank Palmer Made Overland to Chicago Resulted Successfully Roads Were Very Bad.

Frank Palmer, who is employed by C. C. MacLean, returned last night at six o'clock from his long journey overland to Chicago and back. The trip was made for the purpose of bringing to this city for burial the bodies of two persons who had died of diphtheria in Chicago fourteen years ago.

The express companies not being allowed by law to carry the bodies of persons that had died of a contagious disease, the only way to get them to this city was to carry them overland. Mr. MacLean took the contract to do the work and started Palmer on his trip last Monday morning about eight o'clock. He arrived in Chicago Wednesday afternoon at 3 o'clock, the distance by road being about 125 miles.

The roads were in bad shape and the time was necessarily slow. He rested his team at a livery stable loading the caskets into the wagon left Chicago on the return trip Thursday morning at ten o'clock and arrived here last night shortly after six. The entire trip was something over two hundred and fifty miles.

The bodies were not those of very young people one being twenty and the other twenty-four at the time of their deaths. They were buried in metallic caskets one of which was so heavy that five men were required to unload it. One casket would have made a load and Palmer had a shaky time of it coming home, but managed to get here with everything in good shape. The bodies were re-interred in Oak Hill cemetery.

Funeral of Anna Clement.

The funeral of the late Miss Anna Clement, who died in Sumpter, Ore., November 15, was held from the home of her sister, Mrs. C. W. Daily, 167 Terrace street at 10:30 o'clock this morning. The services were conducted by the Rev. J. T. Henderson in the presence of many sorrowing relatives and friends. The body was taken overland to the Turtle cemetery for burial.

STOCK OF A. KARY WAS ATTACHED

Constable Wallace Cochrane this morning attached the stock of A. Kary, the Armenian that has conducted a small fruit and candy store in the Hayes Block. The attachment was sworn out by J. L. Spellman, the West side tobacco dealer. Mr. Spellman alleges in his affidavit that Kary had conveyed or was about to fraudulently convey and dispose of his property and effects to hinder and delay his creditors. Kary had been running behind in his business for some time and had been notified by the Hayes Bros. to vacate the store. He had disposed of some of his stock when Constable Cochrane took possession.

TWENTY-SIX LIVES LOST.

Steamer St. Olaf Founders in Furious Gale.

ALL ON BOARD ARE DROWNED.

Crew of Nineteen and Seven Passengers Find Watery Graves—Vessel Goes Ashore on Boule Island in the Gulf of St. Lawrence.

Quebec, Que., Nov. 26.—Twenty-six persons, every soul on board the crack coast passenger steamer St. Olaf, perished during the big storm, which drove the vessel upon the rocks off the dangerous north shore of the Gulf of St. Lawrence and destroyed it. At the scene of the wreck, which is opposite Seven Islands, 300 miles below Quebec, the sweep of the gale was terrific. The gulf there is nearly fifty miles wide, and, while the hurricanes which rage there frequently have free play, the number of small islands that dot the gulf give poor sea room for buffeted ships. The disaster to the St. Olaf is only one of many that have taken place there in the last few years. Captain Lemaistre, in command of the steamer, and several of his officers and crew belonged to this city. The first dispatch from Seven Islands brought but very meager news and it was only late in the afternoon that A. Frazer & Co., owners of the steamer, were informed of the extent of the disaster. Besides the nineteen men of the steamer's crew seven passengers had also perished.

The St. Olaf was an iron steamer of 305 tons and was built on the Clyde at Port Glasgow in 1882. She was valued at about \$40,000 and insured for about \$20,000. Before coming to this port she ran between Picton and Magdalen islands and was chartered by Frazer & Co. to replace the steamship Otter, wrecked on her last trip to Quebec two years ago. The St. Olaf left here on her last trip to Esquimaux Point, carrying government mails, passengers and a large cargo. All apparently went well on the way down and the steamer left immediately on her re-

CATARRH

Catarrh has become such a common disease that a person entirely free from this disgusting complaint is seldom met with. It is customary to speak of Catarrh as nothing more serious than a bad cold, a simple inflammation of the nose and throat. It is, in fact, a complicated and very dangerous disease; if not at first, it very soon becomes so.

The blood is quickly contaminated by the foul secretions, and the poison through the general circulation is carried to all parts of the system.

Salves, washes and sprays are unsatisfactory and disappointing, because they do not reach the seat of the trouble. S. S. S. does. It cleanses the blood of the poison and eliminates from the system all catarrhal secretions, and thus cures thoroughly and permanently the worst cases.

Mr. F. H. McAllister, of Harrodsburg, Ky., writes: "Having been a terrible sufferer from Catarrh, and being now sound and well, the question often put to me is, 'What cured you?' In answer I feel it my duty to state that Swift's Specific is the medicine. I am such a true believer in the efficacy of Swift's Specific that I can honestly and conscientiously recommend it to any one suffering from Catarrh. Have recommended it to many, and am happy to say that those whom I have induced to use it can bear me out in the statement that it will cure any case of Catarrh if taken according to directions."

SSS is the only purely vegetable blood purifier known, and the greatest of all blood medicines and tonics. If you have Catarrh don't wait until it becomes deep-seated and chronic, but begin at once the use of S. S. S., and send for our book on blood and skin diseases and write our physicians about your case.

turn trip to this port. The dispatch states that she was wrecked on Boule Island.

Scene of Wreck Visited. Quebec, Nov. 26.—A new horror is reported by those who returned from the scene of the wreck of the steamer St. Olaf at Seven Islands. It is believed that most of the twenty-six victims of the disaster escaped the sea to meet a more lingering and more terrible death in the deep snow of a desert island. On Isle Boule were found today wrecks of three of the ship's boats and an empty keg that had contained provisions. Tracks leading from the shore were seen, but there was no sign of life, and it is thought that many of the unfortunates are buried in the snowbanks with which the shelterless island is covered.

Commander to Retire and Air Scandal. London, Nov. 26.—Lord Wolseley will not wait for the return of Roberts, but will retire on Dec. 1 from the head of the army, leaving Adjutant General Wood in temporary command. Wolseley is going to raise a tremendous storm in army circles by an exposure of who is responsible for the blunders of the African campaign. His friends say all the blame had been shoved off on him, and he is determined to stand it no longer. He may make the exposure through the newspapers or from his seat in the house of lords.

He Kills a Girl Playmate.

Lincoln, Ill., Nov. 26.—Earl Brackett, a youth 14 years of age, was at the home of Henry Matheln, a neighbor, examining a rifle belonging to one of Matheln's boys, when Leona Matheln, 11 years old, entered the room. Young Brackett, not realizing that the firearm was loaded, pointed it at the girl and said: "Let's see how near I can come to hitting Leona's nose." With that exclamation he pulled the trigger and was horrified to see the girl fall to the floor. A bullet entered the girl's forehead and pierced her brain.

The Little Tailor Came to His Rescue When Trade Was Dull, but Somehow the Plan He Proposed Failed to Go Through.

(Copyright, 1900, by C. B. Lewis.)

Peessness vhas so poor I don't make some salts, when dot lottle tailor comes around and says:

"Vhell, Hans, I see you don't catch on yet. You vhas in America two years, and yet you vhas greenhorns. A fortune vhas at your feet and still you don't pick him oop."

"How can I pick him oop?" I says. "Shust so easy ash tar. You know about dot troubles in China, of course? Enferbody vhas interested in China shust now. If you say you vhas a cobbler for life years in Peking, more ash two tousand peoples vhill come in to

"But I vhas neffer in China nor Peking," I says.

"Dot makes no defference. You shust go right ahead and tell all about it, and you vhas all right. I vhas neffer in South Africa, but don't I tell my customers all about dot Boer war? Why, I talk for an hour sometimes, and you should see how der peoples rush in der coats and pants to be pressed. Man alive, don't you miss some good things?"

I vhas a lottle scared, and my wife says I shall get my head knocked off, but dot tailor he puts me oop a sign and says I vhas a rich man in two weeks. It goes in der newspapers dot I vhas a Sherman-Chinese-American cobbler, and ash quick ash I open my shop in der morning a man comes in and say:

"By jolly, but so you haf lited in Peking, eh?"

"I haf," I says. "Dot vhas nice, let me hear you talk some Chinese language."

"I can't did it."

"But how do you get along in Peking if you can't speak some Chinese?"

"I shust keep quiet and don't speak to nobody."

"Can you make some Chinese shoes?"

"No."

"Look here, cobbler," says dot man ash his smile goes away. "don't you try to play some roots on me! I vhas no kid. You say you vhas in China for life years. What vhas der name of dot river by Peking?"

"The vhas called der Mississippi river."

"You vhas a har by some clocks! You vhas no more in China dan I vhas in Russia, and if you vhill step out doors I shall haf some pleasure in knocking your head by der middle of next week!"

I don't go out, of course. I says I vhas werry busy and he must excuse me, and he sweats and blows around and goes away. I belief I shall take dot sign down, but along comes a man who says:

"Belly well, belly well! Choppy stickce allee samce eatce rice. So you vhas in China? You vhas shust der clothespin I vhas looking for. How high vhas dot stone wall in China?"

"One tousand feet," I says.

"Vhat? How you make dot out? Who can build a wall so high? Maype you mean 30 feet?"

"I mean one tousand. When you vhas on top of dot wall and look down, a dollar bill don't look so big ash a postage stamp."

"On vbat ocean vhas Peking?" he says after awhile.

"On dot Lake Erie ocean, of course."

"Oh, she vhas, eh? Cobbler, your head vhas either filled mit sawdust, or you vhas an infernal har! I vhas going down town now and don't like to sweat my collar, but if dot sign vhas still oop when I comes back I vhill step in and knock your head ofer your heels and put in two kicks for nottings!"

My wife cries out dot we vhas busted to bankruptcy and some poorhouses, and I belief I shall go out and brace oop on some beer when dot preacher who lifs around der corner comes in. He smiles and shakes hands and says:

"Cobbler, dis vhas sad peessness in China. More ash ten tousand missionaries vhas killed, and maype my brudder vhas among 'em. If you lited in China for life years, you must know about missionary work. Did you see some good influences from her?"

"I did," says I. "More ash 1,000,000 Chinamen don't bet on der races no more after one prayer meeting."

"Ah—um! My name vhas Ricketts. Maype you meet my brudder in Peking?"

"I know him like some books. He looks shust like you. After, some Chinamen hear him preach once nobody gets drunk or whips his wife. I belief your brudder safes more ash 10,000,000 souls in China."

"Ah—um! Den you belief my brudder does some good?"

Destroying Game in Africa.

Complaints continue to come from Africa of the systematic and prodigious destruction of great game. A correspondent writes to London from Beira, in Portuguese East Africa, to say that unless some prompt action is taken the district through which the Umbali railroad passes will soon be denuded of the animal life which abounded upon it a little while ago.

Four in Three Thousand.

Four persons out of every 3,000 men, women and children in the United States are either in jail, or out on bail, or are fugitives from justice. Their total number is 80,000, out of a population estimated at 70,000,000. Only six per cent of all these who have fallen foul of the law are women.

Lee's Family Remains North.

General Fitzhugh Lee and family had intended to return to Cuba Oct. 22, but the prevalence of yellow fever in Havana has changed the general's plans. He returns to his post alone, but the family will spend the winter in Richmond, Va.

Salisbury Reckless of Danger.

A French journalist, who has been visiting the Vosges, was surprised to find Lord Salisbury taking long, solitary walks in the country, and he points out that it is dangerous for the British premier to thus expose himself to attack in view of the strong local feeling against Great Britain which exists on account of the South African war.

Clean Bread

Can't be made by foul hands and clean, pure blood can't be made by a foul stomach. The blood is made by the stomach and organs of digestion and nutrition.

When these are diseased they contaminate every drop of blood made from the food they act upon, and this contamination is carried through the whole body. It may settle in the liver, kidneys, heart or lungs but the root of the disease is in the stomach. Cure the stomach and you cure the disease.

Dr. Pierce's Golden Medical Discovery cures diseases of the organs of digestion and nutrition perfectly and permanently. It purifies the blood, and so by curing the cause of disease cures many forms of disease in organs remote from the stomach.

"For the past sixteen years I have had torpid liver and indigestion and tried many doctors and patent medicines but I could not get a cure," writes Mrs. Simon Suggs, of Clyde, Sabine Parish, La. "Three months ago I thought I would try Dr. R. V. Pierce's Golden Medical Discovery and his 'Pleasant Pellets.' I got six bottles of each and I received a good result, in a week, and today I am cured sound and well. The symptoms were coated tongue, specks before the eyes, disposed to be cross and irritable, foul stomach, bad taste in the mouth, tired feeling, a feeling of dread or fear, headache, yellow skin, etc. These symptoms did not all appear at once. If sufferers from such troubles will take Doctor Pierce's Golden Medical Discovery and 'Pleasant Pellets' as directed in pamphlets wrapping bottles, they will bring back the bloom of life as it did with me."

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

You'll make a discovery, if you do. One that will result in less tea buying, too. You'll admire the pure, tea taste, first. Will wonder what sort of stuff the other was, anyway. Then you'll notice that it doesn't take nearly as much of our Tea to make a good cup as it did of the other. Finally the price is lower than you've been paying for poor tea. Will sell you the best tea you ever drank.

New York Financier Falls.

New York, Nov. 24.—Chester B. Lawrence, Jr., a member of the Consolidated stock exchange, made an assignment today to George H. Holburn.

Among Lawrence's customers were many women and a number of them became hysterical in his office when the assignment was announced. Lawrence, who had five offices in this city, is said to have been in difficulties for several weeks. His troubles were brought to an issue by a woman customer, who had Lawrence and Edward B. Underhill, his office manager, summoned to court on the accusation of withholding money and bonds and refusing to give her an immediate statement.

Floods Grow Alarming.

Anaheim, Cal., Nov. 24.—The flood situation here is alarming. A break in the Santa Ana river has brought the water to within a mile of the town, which is fifteen feet below the bed of the river, and if the rise in the latter continues the town will be swamped. The Catholic cemetery was reached last night and is under a foot of water. In the peat lands breaks in the Santa Ana river have let in a large volume of new water, and the celery men fear the entire crop of 1,500 cars will be lost.

Over 100 families have been driven from their homes, and there is fear that people in isolated sections have been drowned.
